

PDS Technical Session

Welcome

September 21-23, 2016

Welcome and Logistics

- Facilities
- Breaks/Lunch
- Wireless (Caltech Guest or eduroam)
- Office for phone calls, if needed
- Please send presentations to Sean and Emily

Purpose of the Tech Session

- The Tech Session is meant to be a forum for the nodes (including DN and EN) to discuss PDS4 including standards, tools, and services
- The Tech Session should be discussion-oriented about “how” things are being done
- Questions are welcome! This can be “how” something should be done in PDS4, how a tool can be installed/used, or future plans.

Agenda

- Day 1: Standards Support and Plans
- Day 2: Tool Support and Plans
- Day 3: Services Support and Plans

Day 1

- Focus on sharing lessons learned using PDS4 to:
 - Improve implementations across the PDS
 - Identify gaps to address in FY17
 - Understand how current and planned missions will use PDS4
 - Understand the scope and needs for tool support (to be continued on day 2)

Day 1 Agenda
