CC: Trent M Hare, Law, Emily S (US 3980), Joyner, Ronald (US 398G)

Folks -

Emily has sent us 2 more more SCRs to consider. SCR-311 is definitely a proposed change that requires a vote. SCR 302 is called out as a bug fix (informational for CCB), but it looks more like an addition to an enumerated list update to me. CCB members should definitely vote yes/no on 311 and you can either vote or tell me that you think that 302 is a bug fix. Neither of these two items appears to be controversial, so hopefully we won't need to meet. That said, any CCB member can request a meeting if they feel that more discussion is required. Votes are due by end of day on Tuesday Jan 26. If we need to meet, we will meet on Tuesday at the normal time but please let me know by Monday morning if you're going to request a meeting.

-Steve-

The following SCRs are ready for our vote/information:

[CCB-302](#) (No <reference_type> values defined in DD_Attribute or DD_Class contexts) Item Passed: 9 Yes, 1 Abstain

[CCB-311](#) (Value meanings for <rule_type> permissible values should be rewritten) Item Passed: 8 Yes, 2 Abstain
