Folks -

Emily has sent us a new SCR to consider. The SCR has been described as a bug fix but I see it more as an enumerated list update. Either way, I think that this one just needs CCB review, and not necessarily a vote. I don't think that the issue itself is controversial. Everyone please look this over. If anyone thinks we need to vote on this, let me know by Friday (March 19) and I'll call a vote for next week. If I don't hear from you, I will take that as a "concur", no need to vote.

-Steve-

CCB-283 ([link](#)) -- DDWG PASSED: 9 yes; 1 Abs;

- **Requested Changes:**

For attribute Product_Document.Reference_List.Internal_Reference.reference_type, add enumerated value "document_to_data" with definition "The document is associated to a data product".
