Dear all –

 The results of the 2017-0606 consent items are as follows:

Consent items

-   CCB-179 In PDS4 'pds' namespace, use ASCII_NonNegative_Integer where value must be >=0
    Item PASSED: 6 Yes (ATM, GEO, IMG, IPDA, PPI, SBN); 1 No (RMS)

-   CCB-183 IM contradicts SR on how many stewards to a namespace
    Item PASSED: 6 Yes (ATM, GEO, IMG, IPDA, PPI, RMS); 1 No (SBN)

Notes on CCB-183: Consent on this item indicates agreement to close the SCR without action. Several CCB members encourage the document writing team to note in the Standards Reference that while a namespace may have only one steward, there is the existing case of the "pds" namespace that has two stewards. Other CCB members feel this language is unnecessary and may be confusing. Of course, it is up to the document writing team to decide how they want to address the situation in the SR, if at all.

Tom
