**From:**Steven Joy <[sjoy@igpp.ucla.edu](mailto:sjoy@igpp.ucla.edu)>  
**To:**Edward A. Guinness <[guinness@wunder.wustl.edu](mailto:guinness@wunder.wustl.edu)>  
**CC:**Ronald Joyner <[ronald.joyner@jpl.nasa.gov](mailto:ronald.joyner@jpl.nasa.gov)>

Ed -

Both items passed.

- 20180802: CCB e-Vote item: CCB-218  
-- Item PASSED: 5 Yes (GEO, IMG, PPI, RMS, SBN); 1 Abstain (IPDA); 1 Failed to vote (ATM).

- 20180802: CCB e-Vote item: CCB-224  
-- Item PASSED: 6 Yes (GEO, IMG, IPDA, PPI, RMS, SBN); 1 Failed to vote (ATM).

-Steve-

Note, Lynn (ATM) suggested that 224 was a bug fix and didn't need a vote.

Steve,

I am trying to track down the results (pass or not) for CCB-224 and CCB-218. Do you have those?

Thanks,

Ed

**Subject:** Re: PDS CCB: Two new SCRs ready for review

Folks -

Just a quick reminder that votes are due tomorrow. Thus far I have received votes from GEO, ATM, RMS, and PPI. I'm missing votes from IPDA, SBN, and IMG.

Folks -

Two new SCRs were forwarded to us for review by the DDWG by way of Emily. Both of these passed the DDWG with on one no vote on 207 so they are likely good candidates for an e-vote. However, as always, anyone is free to ask for a telecon to discuss one or more of these issues. The SCRs for our consideration are:

[CCB-207](#) Spurious Local\_Internal\_Reference in Array objects

[CCB-233](#) Need the capability to "associate" Browse products to other types of products

SCR-233 has been updated per our instructions so hopefully it will be less controversial this time. Votes are due by 10 am PDT, Wed. Aug 15th.
