Folks -

Last week Emily sent me a new CCB that was passed unanimously by the DDWG that is a bug-fix correction to CCB-206. This announcement is informational and this SCR does not require a CCB vote.

CCB-237   Change Attribute doi to Data Type ASCII_DOI

When CCB-206 was written and passed, it used the data type " ASCII_Short_String_Collapsed" which is technically valid but does not allow the system to valid that it conforms to the DOI convention. There already exists a PDS4 data type of ASCII_DOI that should have been specified. CCB-237 corrects this problem.
