Folks -

Emily sent me two new SCRs this morning that need our review and votes. There were 2 DDWG reps not present (IPDA and NAIF) for the voting and a few abstentions so these votes were not as clean as some of those in the recent past. Please look these SCRs over and let me know if anything requires our discussion by telecon no later than Monday, Nov 25. Otherwise, let's try to have all of the votes in by 11 am PST Tuesday, November 26.

 -- [CCB-138](#) Mismatch between context object types and values of <type> in <Observing_System_Component> class

DDWG vote:
   -- Item Passed: 7 Yes (atm, cis, en, geo, ppi, rms, sbn), 1 abstain (rs)

 -- [CCB-268](#) Add optional attribute to class <Terminological_Entry>

DDWG vote:
   -- Item Passed: 6 Yes (atm, cis, en, geo, ppi, rs), 2 abstain (rms, sbn)

Thanks,

-Steve-
