

Hi CCB,

Given the time sensitivity of these for MAVEN, I'd like to have a telecon next Tuesday (12/16) at 8:30am PST.

We have 4 SCRs to consider. Please review and post comments as necessary.

I realize some of you will be at AGU. We'll keep this to an hour max.

——— AGENDA———

1) Intro. (~5 min)

2) VOTING (40-45 min)

CCB-90 Add "Line-Feed" as a permissible value for record_delimiter in Stream_Text, Table_Character, and Table_Delimited

CCB-92 Include Array_4D and Array_5D classes in File_Area_Observational_Supplemental and File_Area_Browse

CCB-94 Add support for string values in arrays.

CCB-95 Change Array from Concrete to Abstract

3) Any walk-ons

—————

For next Tuesday, Call in info: 818-35(4-4044) or Toll Free 844-JPL-WEBX (844-575-9329), ID: **998 807 537**

CCB Website: <https://pds-engineering.jpl.nasa.gov/content/ccb>

Thanks everybody!

-Lynn
