Subject: FW: 1 SCR is ready for CCB to review (CCB-345)

Dear CCBers,

Please find below details of a ticket that passed through DDWG for our approval. This is simply to add "Sky" to the enumerated list of values for Target_Identification/type. I would assume this is OK for an e-vote, but as ever shout if discussion is needed. If not, please send me your yays or nays by EOB on 7th November, if possible.

Regards, Mark
