

Operations Report

PDS Management Council Meeting

Flagstaff, Arizona

August 2006

<http://pds.nasa.gov>

Topics

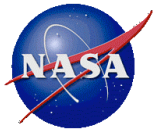

- **Catalog Cleanup**
 - Data Set Reconciliation Progress
 - Discrepancy Causes
 - April 2006 Summary
 - July 2006 Summary
 - Proposed changes
- **Process Improvement**
 - Ingest Process
 - Release Process
 - Keyword Approval Process
- **Performance Monitoring**
 - System Performance
 - Monthly Summary
 - Link Check

Catalog Cleanup - Reconciliation Progress

- **Catalog/DN data holding reconciliation**
 - Wrote program to extract data holding info from GEO, PPI and SBN, compared with Catalog, generated and reported discrepancies to GEO, PPI and SBN (Jan-Feb 2006)
 - Generated reports for other Nodes (Mar-Apr 2006)
 - Worked with Nodes to investigate initial discrepancies (Mar-Apr 2006)
 - Posted April reports and status for each Node on EN web page (Apr 2006)
<http://pds-engineering.jpl.nasa.gov/index.cfm?pid=3&cid=69>
 - Updated program to query SBN & RINGS product server
 - Re-generated reports for all Nodes (Jul 2006)
 - Continued working with Nodes to resolve discrepancies
 - Posted July reports and cumulated status for each Node on EN web page (July 2006)

Catalog Cleanup - Discrepancy Causes

- **Main reasons causing the discrepancies**
 - Data Set to be ingested PDS Catalog
 - Catalog files yet to be given to EN
 - Data Set in peer review or lien resolution state
 - In PDS Catalog, but not archived at Nodes
 - Special product not to be included into PDS Catalog
 - Data Set stored off line at Nodes only
 - Erroneous data set ID
 - Archive status not up-to-date
 - Multiple data set IDs for the same data set
 - Superseded data set
 - NSSDC IDs not up-to-date
 - Backup resource not up-to-date

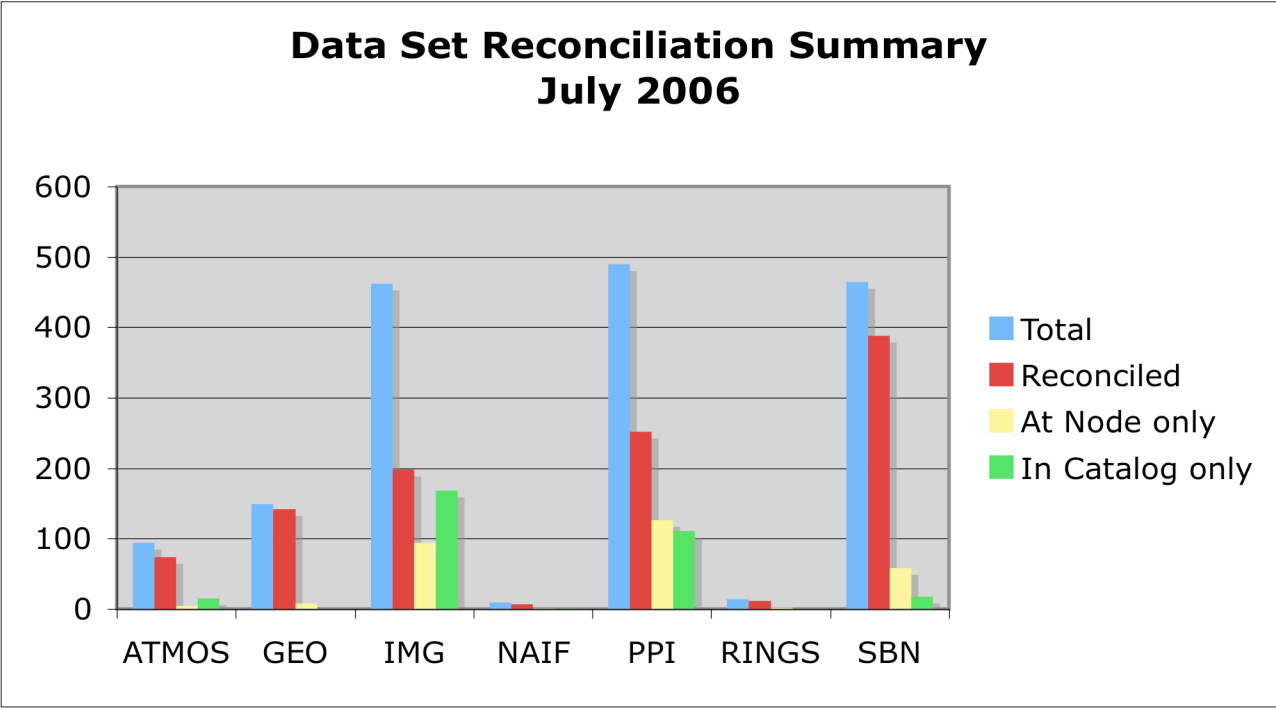

Catalog Cleanup - April 2006 Summary

	ATMOS	GEO	IMG	NAIF	PPI	RINGS	SBN
Total	95	150	197	9	490	14	465
Reconciled	78	142	143	7	252	12	389
At Node only	5	8	29	1	127	2	58
In Catalog only	12	0	25	1	111	0	18

Catalog Cleanup - July 2006 Summary

	ATMOS	GEO	IMG	NAIF	PPI	RINGS	SBN
Total	95	150	196	9	490	14	465
Reconciled	74	142	145	7	252	12	389
At Node only	5	8	27	1	127	2	58
In Catalog only	16	0	24	1	111	0	18

Catalog Cleanup - Proposed Changes

- **Local Archive -> Archive**
 - No policy stipulates when archive status changes from “Local Archive” to “Archive”
 - Proposed change
 - Change occurs when NSSDC ID (provided by Node) is ingested into PDS Catalog
- **Superseded Data Sets**
 - Superseded data sets are not searchable nor viewable
 - Proposed change
 - Update revision notes of the superseded data sets
 - Provide an option to search and view the data sets
 - Provide link to the data set that succeeds it

Process Improvement - Ingest Process

- **Ingest process**
 - Reviewed and documented current process (Feb-May 2006)
 - Focused on standardizing ingestion process across EN
 - Identified potential “work around” to difficult / sizeable effort tasks
 - Developed script to initialize / rebuild DE database
 - Modified ingestion tool to auto-create result report
 - Near term improvement
 - Build tool to compare catalog files to be ingested against cataloged data and report if differ or identical
 - Longer term improvement
 - Automate Ingest process, a development task to start in FY07 (currently in EN over-guide POP)

Process Improvement - Release & Keyword Process

- **Release process**
 - Drafted current process (Jul 2006)
 - Next Step: Focus on identifying difficult / sizeable effort tasks and areas that can be streamlined (Aug 2006)
- **Keyword approval process**
 - Examine current process (Jul 2006)
 - Draft an enhanced process (Jul 2006)
 - Prototype a keyword tracking tool (Aug 2006)
 - Review by Nodes (Aug-Sept 2006)

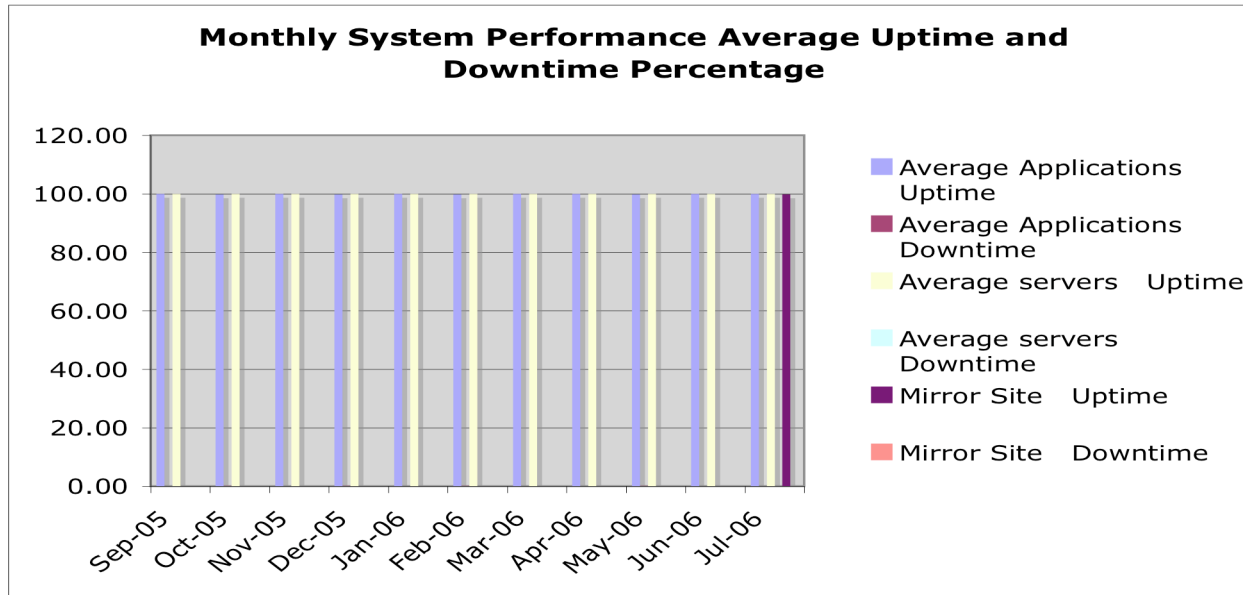

Performance Monitoring - System Performance

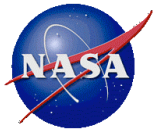

- **Automated System Monitoring**
 - EN servers
 - EN applications
 - Mirror Site
 - Nodes product servers
- **Monthly reports on EN site**
<http://pds-engineering.jpl.nasa.gov/index.cfm?pid=6&cid=30>
- **Proven high availability (mostly 99.9x to 100% uptime)**
- **A few below 99.9% due to**
 - Pasadena City power failure
 - JPL network failure
 - Mirror Site network failure
 - Transient server overload

Performance Monitoring - Monthly Summary

	Average Applications		Average servers		Mirror Site	
	Uptime	Downtime	Uptime	Downtime	Uptime	Downtime
Sep-05	99.97	0.03	100.00	0.00		
Oct-05	99.92	0.08	100.00	0.00		
Nov-05	99.96	0.04	100.00	0.00		
Dec-05	99.81	0.19	100.00	0.00		
Jan-06	99.97	0.03	100.00	0.00		
Feb-06	99.77	0.23	100.00	0.00		
Mar-06	99.98	0.02	100.00	0.00		
Apr-06	99.93	0.07	99.95	0.05		
May-06	99.83	0.18	99.98	0.02		
Jun-06	99.95	0.05	99.99	0.01		
Jul-06	99.98	0.02	99.94	0.02	99.833	0.067

Performance Monitoring - Link Check

- **Link Check completed in July 2006**
 - Performed verification using Web Link Validator by REL
 - PDS Home website
 - EN website
 - PDS Catalog resource links
 - ATMOS website
 - GEO website
 - IMG website
 - NAIF website
 - RINGS website
 - PPI website
 - SBN (Maryland and PSI) websites
 - Results reported to Nodes
 - Broken links were fixed
 - Reran verification
 - Reports posted on EN site
<http://pds-engineering.jpl.nasa.gov/index.cfm?pid=6&cid=43>

- **Next Link Check schedule: February 2007**
