Lynn et al.,

A few quick comments about this batch of SCRs, in the hopes that they might speed up tomorrow's telecon.

CCB-11. This is a request for permission to update a validation rule so that input conforms to the PDS4 spec. The purpose of the CCB is to evaluate changes to the spec. As this is not a request for a change to the spec, it should not appear before the CCB. The PDS4 developers are fully authorized, even required, to fix bugs in their software and to update schematron rules as needed to validate input.

Editorial comment--No project can succeed if programmers need to ask permission before they fix bugs!

CCB-12. I approve. This could be handled via email.

CCB-13. Similar to CCB-11. This is not a change to the spec, and should not require CCB input.

CCB-14. Ditto.

CCB-15. Ditto. Implementation of a consistency check has no bearing on the PDS4 standard.

Done!

Hi everyone,

Thanks for a productive meeting this week. Moving forward, our next meeting will be next week Tuesday, July 9, 2013, 8:00am PDT.

I'm including the HTML versions of the JIRA output again for your reference until we get our JIRA issues solved.

ALSO, our 'public' website for the MC and interested parties to track what we are doing is up and ready. Minutes from previous meetings can be found there as well:

<http://pds-engineering.jpl.nasa.gov/index.cfm?pid=145&cid=190>

--- AGENDA ---

- 1) Introduction/Recap from last meeting (Lynn) 5 min
- 2) JIRA updates/issues (Emily) 5 min
- SCR REVIEW -
- 3) Review/Vote CCB-11 thru CCB-15
- [Triage threw CCB-10 back to DDWG]
- 4) Next meeting plans (Lynn) 5 min
- 5) Walk-ons ?

Let me know if you can't call in or if you have a proxy covering for you! ... or if you have any questions. Please try to review these before the meeting, if you've got questions let me know as soon as possible.

Don't think we used webex much this week so unless we need to present something, I'm not going to have it set up.

Thanks,

-Lynn

Please use the following telecon (dial in) line for all future (weekly) CCB telecons:
