CC: Crichton, Daniel J (4231), Joyner, Ronald (398J)

Hi CCB!

NO TELECON this week --- VOTE by email.

This week I'm traveling on vacation... but we also have a light week from Triage.
I would like to conduct this week's vote via email.

Please review CCB-18, which contains the added definitions for the lander (spacecraft, rover, and Earth-based).
Note the differences and also review the Tech Assessment Tab.

We'll plan on having the vote and comments in to me by 8:30 am PDT Tuesday, August 6, 2013.

This is looking much more prepared now that we're addressing who edits these after we send them back with our comments.
We have 2 more coming down the pipeline that Triage tells me need a little more time and we'll add to next time.

Thanks to everyone! We'll plan on the next telecon date being scheduled for 20 Aug 2013, 8:30am PDT.

-Lynn
