Hi Everyone,

Here are today's results. Pretty unanimous this week.

CCB-18

ATM - Yes

SBN - Yes

PPI - ??

IMG - Yes

RINGS - Yes

GEO - Yes

IPDA - (holiday - yes?)

SCR Comments:

SBN - Definitions look ok now.

RINGS - The definitions are clear. If new values are needed, they can be added later.

ATM - Much better definitions. Adding values as we find them necessary for other vehicles makes sense.

General Comments:

RINGS - Random note. The JIRA page has a button for "Vote for this issue" but it does nothing, except when you click on it it changes to "Remove vote for this issue." It would be handy if we could actually vote using JIRA, but that would entail there being actual options for "Yes" and "No". Just a thought.

Thanks everyone for participating!

I'll send out the next set on August 15.

-Lynn
