Hi Everyone,

As per our discussion this morning, Dick, Anne, and Todd have worked to clean up CCB-36 Primary_Results_Summary Redesign. The changes have been made and additional documents have been uploaded.

Please get member votes to me by Thursday (9/26) morning 8:30 am PDT on CCB-36. I'll plan to have the summary to Emily by ~9:00am PDT so that Steve Hughes and team can get rolling on getting the changes implemented for the Build 4a model freeze at the end of the month.

Special thanks to all who called in to help discuss this issue this morning. Great job to everyone!

Next regularly scheduled meeting will be planned for two weeks from today. (10/8/13) -- this coincides with DPS -- We'll see what issues triage sends us next -- we may be able to do an e-vote for that meeting.

Thanks,

-Lynn
