Hello CCB!

Our next telecon will be Tuesday, October 22, 2013, 8:30 am PDT.

We have several issues to vote on this week. We will also begin to address items that have backwards compatibility consequences. The Engineering Node will give us a brief synopsis of the deprecation policies before we vote this week, just to spell-out or remind us of the process that is pretty much already in place. Please let me know if there are any questions or problems!

Thanks,
-Lynn
