Hi -

Suggested rephrasing of paragraph 2 of the Product_Native policy:

Consistent with established policies and allowed discretion for all products and collections, PDS or any discipline node may reject Product_Native submissions based on scientific usefulness and merit.

I think it keeps the intent of paragraph 2 without sounding like rejection can be based on persona preferences or whims.

Hi CCB,

Another full week for next week's telecon. We'll plan on meeting at our usual time (Don't forget the time change this weekend).

As is our usual custom now -- Any of the responsible parties (Todd, Dick, Steve, Elizabeth) for these SCRs this week should try to phone in for questions and/or comments about their requests.

Thanks in advance for everyone's participation!

-Lynn

--- AGENDA ---

1) Intro (Lynn) 5 min

2) Voting 45 min

CCB-46: Develop a new PDS4 product for observational data that do not have table or array structures. (S.Hughes)

<https://pds-jira.jpl.nasa.gov/browse/CCB-46?jql=>
