Hi CCB,

We will plan to have a short telecon next Tuesday, May 27, 2014, 8:30am PDT. We have a couple SCRs that are ready for CCB review. CCB-57 will need to be considered as a bug fix — Emily and I discussed that we feel this is still a bug fix, but I wanted to double check that everyone feels comfortable with this one remaining a bug fix. CCB-61 is in response to concerns put forth by Mike Martin for collection-level metadata. I've been told that NSSDC doesn't support this SCR, and we should probably examine this and discuss the necessity of the proposed changes.

Comments should be entered on JIRA.

REMINDER to Emily: Make sure we're tracking comments! ;-)

Hope to see everyone online Tuesday.

Thanks,

-Lynn
